## **VERSION WITH MARKINGS TO SHOW CHANGES MADE**

1. (amended) A method for enabling a consumer to access the Internet using a television having at least one television tuner, comprising:

configuring the television to have plural television channels and at least one virtual channel, the virtual channel representing a Web page; and

periodically [sending] <u>receiving</u> updates to the Web page [to] <u>at</u> the television, such that the virtual channel is periodically updated thereby.

- 4. (amended) The method of Claim 1, wherein the updates are [sent via] received over a DSL.
- 5. (amended) The method of Claim 1, wherein the updates are [sent via] <u>received over</u> a cable modem line.
- 6. (amended) The method of Claim 1, wherein the updates are [sent via] <u>received over</u> at least one vertical blanking interval (VBI) of a television signal.
- 9. (amended) The method of Claim 1, wherein the act of [sending updates] <u>receiving updates</u> includes:

[sending] <u>receiving</u> information pertaining to at least one update to the television; and at the television, using the information to determine whether to download the update to the television.

- 13. (amended) The method of Claim 10, wherein updates to the Web page are [sent via] <u>received</u> over a DSL.
- 14. (amended) The method of Claim 10, wherein updates to the Web page are [sent via] <u>received</u> over a cable modern line.
- 15. (amended) The method of Claim 10, wherein updates to the Web page are [sent via] <u>received</u> over at least one vertical blanking interval (VBI) of a television signal.
  - 18. (amended) The method of Claim 10, wherein the act of updating or changing includes: [sending] receiving information pertaining to at least one update [to] at the ITV; and at the ITV, using the information to determine whether to download the update to the ITV.
- 23. (amended) The method of Claim 19, wherein updates to the Web page are [sent via] <u>received</u> over a DSL, or via a cable modem line, or via a wireless path, or via at least one vertical blanking interval (VBI) of a television signal.
- 31. (amended) The method of Claim 27, wherein updates to the Web page are [sent via] <u>received over</u> a DSL, or via a cable modem line, or via a wireless path, or via at least one vertical blanking interval (VBI) of a television signal.
  - 34. (amended) The method of Claim 27, wherein the act of updating or changing includes: [sending] receiving information pertaining to at least one update [to] at the ITV; and at the ITV, using the information to determine whether to download the update to the ITV.
- 39. (amended) The method of Claim 1, wherein updates are [sent via] <u>received over</u> a wireless path.
- 40. (amended) The method of Claim 10, wherein updates are [sent via] <u>received over</u> a wireless path.
